

SMALL FOOTPRINT DELIVERS YOUR EVERYDAY LABEL PRINTING NEEDS

ME240 . ME340 INDUSTRIAL THERMAL TRANSFER BAR CODE PRINTER

The TSC ME240 series of industrial thermal label printers was designed to offer the right features at the best value in the industry. The ME240 features a small footprint and low profile design that fits where larger industrial printers do not. Its quiet operation and fast label throughput is equally at home, in the office or shop floor environment. The printers all-metal construction and die-cast aluminum print mechanism is durable enough to withstand the toughest production environments.

DIE-CAST PRINT MECHANISM FOR CUSTOM APPLICATIONS

The ME240 printer's unique design features a heavy-duty die-cast aluminum print mechanism, which TSC will make available as a stand-alone unit to partners who want to design and build their own custom packaging machine or label applicator. The print mechanism includes a ribbon handler and printhead assembly and is designed to hold the electronics main board and power supply. This compact assembly is ideal for resellers who want to develop low-cost customized solutions for packaging, product marking and other applications.

While priced for value, the ME240 series offers two models loaded with popular features, and offers a selection of options and accessories to further enhance its capabilities to meet the demands of a wide range of printing solutions. Standard features include USB and serial connectivity, a 2-button 3-LED (basic model)/ 6-button LCD (advanced model) control panel, Real Time Clock, 8 MB DRAM memory, 4 MB FLASH memory and an SD Flash memory card slot that allows for FLASH memory expansion up to 4 GB.

Popular options include a full featured graphical LCD display (for basic model), Ethernet connectivity, USB Host, a peel-off kit (including a peel-off sensor and panel), stand-alone keyboard, cutter module and a

parallel port to work with legacy installations.

The ME240 series features TSPL-EZ firmware that is easy to set up and use. TSPL-EZ offers automatic TPLZ and TPLE language emulation right out of the box. The printer simply translates each label format as the printer receives it. The included DiagTool configuration software makes it a snap to replace existing printers with a modern durable ME240 series printer. Other TSPL-EZ features include a file manager and programming language that support stand-alone and down-time programming solutions allowing you to print labels without connection to a host computer, or optionally be able to continue printing labels during times of network failure.

The ME240 delivers 4-inch print width, 203-dpi (8 dots/mm) resolution, 6-ips performance, and full 8" OD roll media handling capability.

The ME340, based on the same platform as the ME240, offers 300-dpi (12 dots/mm) resolution, 4 inches per second speed and a full 8" roll media handling capability.

KEY SERIES FEATURES

- ▶ 2-button 3-LED (basic model)/ 6-button LCD (advanced model) control panel
- ▶ Easily adjustable sensors
- ▶ Print head pressure adjustment knobs
- ▶ 450 meter ribbon capacity
- ▶ Flexible firmware structure allows the printer to emulate popular printer languages
- ▶ Available in 203 dpi and 300 dpi resolutions
- ▶ Up to 4 Gigabyte Flash memory expansion using SD Flash memory
- ▶ Fast label throughput
